## Join The Shorthorn Association

- Every new Shorthorn breeder should know that Class B Life Memberships are available in the American Shorthorn Breeders' Association at a cost of \$10.00 plus an annual due at \$1.00. Or the Deferred Payment plan allows full membership privileges upon the payment of \$5.00 plus the annual due, with the balance of \$5.00 within 12 months. All Shorthorn breeders who complete an application for this Class B Membership are automatically members of The Shorthorn Club.

### MORE MONEY FOR MEMBERS

- In addition to other benefits each member effects cash savings of approximately 50 per cent on all Shorthorn pedigree registrations and transfers recorded by The American Shorthorn Breeders' Association. Thus, even if you register no more than two or three animals each year, it actually PAYS you to own a membership. **NUGGET'S CHAMPION**—An attractive dark red with the bone and ruggedness that indicate a sire of good bull calves. His head is short and wide, displaying much character and style; his body is short, wide and thickly meated and set on short sturdy legs. His full brother stood next to the Grand Champion of the Congress show last year and received much favorable comment.

## Shorthorns Make Fast Gains

- The ability of Shorthorns to out-weigh and out-gain other breeds was demonstrated by the official weights of steers that competed at the last International Live Stock Exposition, held in 1941 at Chicago. This event is considered the nation's supreme court of the livestock industry.

Accurate weight and age information was available on 122 Shorthorns, 130 Herefords and 229 Aberdeen-Angus in the junior and open divisions. Shorthorns scored highest with an average of 2 pounds per day gain from birth, while the two other breeds tallied 1.95 and 1.91 pounds, respectively. This figures an average advantage of 45.45 and 25.25 pounds over 505-day-old steers of competing breeds. That's extra profit for any producer of prime beef and clearly backs the findings of leading feeders who have fed all breeds of cattle, "that no steer can walk out of a feedlot after a given length of time carrying more weight than a Shorthorn."

The consistency of Shorthorn performance in this regard was also shown in the study of the International Exposition. In all of the four junior classes and in three of the four open classes, it is highly significant that Shorthorns were ahead by substantial margins in the all-important average daily gain!

The dam, Browndale Carnation 11th, is one of the top cows in our herd. If you are looking for shorter legged, thicker cattle, you won't go wrong on this one.

Jack Talbott, Jr., Guthrie, Okla., and his American Royal Grand Champion steer. This steer was sired by Klaymor Cadet, herd sire of J. A. Collier & Son, Fletcher, Okla., and out of a cow owned by Tribble Bros., Navina, Okla. The steer sold for \$2.25 a pound to Williams Meat Co. of Kansas City—a record price for the year. He weighed 1,115 pounds. The Shorthorn breed owes much to breeders, as well as the boys and girls of America, who make these triumphs possible.

## *Wins Ft. Worth Carcass Contest*

● In the carcass contest held in conjunction with the Southwestern Fat Stock Show at Fort Worth, Texas, in the spring of 1941, Shorthorns made a remarkable showing. Three of the four top places went to steers of this breed.

Top steer was a Kansas bred and Texas exhibited entry dressing 70.77 percent. Second and fourth place winners were both bred and owned in Texas.

This is the second consecutive year that Shorthorns have won this nationally important contest. A year earlier a Kansas bred and Illinois owned Shorthorn headed the list by dressing an exceptional 71.15 percent.

# Shorthorns Sweep Hoosier Gold Medal Calf Contest

In 1936 Purdue University began an epochal project designed to help the beef breeders of Indiana to determine their most profitable, fastest gaining strains. It is a sort of production testing program for beef cattle.

The contest is open to all beef breeds. An entry consists of at least 10 sons and daughters of one bull. Factors on which the calves are judged are rate of gain and conformation, the latter determined by winnings at the Indiana State Fair in a special classification for Gold Medal Calves. Sire of the winning group of calves is honored as the Hoosier Bull of the Year.

Shorthorns have won every single year! Not only has every Hoosier Bull of the Year been a Shorthorn, but every year the majority of the first 10 place winners are Reds, Whites and Roans. In 1941, for instance, 7 of the 10 highest scoring bulls were Shorthorns.

Shorthorn weight for age is no idle claim—it is proved by performance and backed by generations of constructive breeding along this line.

# *It's In The Blood*

Not long ago, the University of Nebraska made a feeding experiment on one pen of Shorthorns and three pens of another breed. The experiment lasted 137 days.

The pen of Shorthorns weighed 1,200 pounds and sold when prices were low at \$8. The pens of the other breed, same age, weighed 1,100 and sold at \$7.50. But the important point is that the Shorthorns gained 2.4 pounds a day while the others gained 2. Furthermore, the reds, whites and roans ate about 40 pounds less corn and 50 pounds more hay while making the better gain.

ROSEWOOD 136th

● ROSEWOOD 136th  
—A heifer's first calf that is indeed a credit to both her sire and dam. Only because we wanted to sell a good one in the Congress sale is she offered. We doubt if a thicker, lower set, more compact heifer will be sold this year. We would like to see this heifer go where she could be mated with one of the best bulls of the breed.
